We are all part of one story or another. This ***Storytime*** concert explores the dynamics and the drama of some of those stories. With textures, styles and musical genres that are constantly changing, Choral Chameleon brings to life some of the universal themes in any good story with vitality and poetry and humor. Vince Peterson, the music director, has just received the coveted Louis Botto Award from Chorus America because of his adventuresome programming and entrepreneurial skills.

Come to hear this unique and exciting adventure in sound. Choral Chameleon is very excited to return after their warm reception last year
