The Gift Of Co-Imagining - led by Pat Francek

This workshop invites us to a greater understanding and appreciation of our own unique spirituality and how it has supported us through life's challenges. It also provides the gift of co-imagining where, in a safe setting, opportunity for connection and community occurs as we share perspectives together on our spirituality and our life's journey.

We begin by "calling us" together with the use of drums, rattles and other musical instruments. Then through an experience in guided meditation, we intend to create a safe space within which to reflect and share. Through the use of the Visual Explorer, a set of images intended to spark imagination, we're invited to reflect silently and then share in small groups of 3 or 4 about an image that resonated with a challenging or transformational moment in each of our lives. Within this process, "surprise" and "magic" begin to happen-- Connection and Community can grow. We conclude by taking time to play with art materials and words, silently or expressed, to create a touchstone or take away from this evening. (The 6 word story is introduced...a fun way to say a little but signify a lot!)

Those who sign up are asked to bring a rattle, drum or other musical instrument, their cell phone and a pen or pencil with which to write.
